

EUROPEAN SOCIETY FOR SURGICAL RESEARCH CONGRESS

LILLE FRANCE 29 - 30 JUIN 2023
www.essr.surgery

Hernia Surgery

Laparoscopic transabdominal preperitoneal approach for recurrent inguinal hernia: a randomized trial
ALY SABER, Egypt

Risk factors for bowel resection in patients with incarcerated inguinal hernia. Retrospective clinical study

TURGUT DONMEZ, Turkey

The effect of laparoscopic hernioplasty versus lichtenstein tension-free repair on testicular blood flow in inguinal hernia patients. A randomized control study

AHMED EZZAT ELGHRIEB MOUSTAFA, Egypt

Quantitative evaluation of the abdominal wall mechanical behavior by a new connected abdominal binder: a preliminary study

THIERRY BEGE, France

Incarcerated incisional hernias should be managed surgically where possible, despite a high incidence of obesity and comorbidity: a 7-year experience in a district general hospital.

ISLAM OMAR, Ireland

Case-Based Learning

Experience using thermography for evaluation of hepatic blood flow in hepatectomy.

KEN TSUBOI, Japan

Post-cholecystectomy major bile duct injury: ideal time to repair based on a multi-center randomized controlled trial with promising results

MOHAMMED OMAR, Egypt

The radiological outcomes of bi-planar, retrotubercle, medial opening–wedge high tibial osteotomies

JASON MAVROTAS, United Kingdom

Clinical study on the efficacy of nanocrystalline-silver in diabetic foot

GOWRI MADHUSUDANAN PILLAI, UK

Initial pancreatic volume (ipv) predicts pseudocyst formation in patients with acute pancreatitis

ARPÁD PANYKO, Slovakia

Hemiarthroplasty in unstable intertrochanteric fractures in elderly: a prospective study

ABHISHEK SHETTY, India

Comparative study of three common bile duct closure techniques after choledocholithotomy: safety and efficacy

MOHAMMED OMAR, Egypt

A morphological review of medial malleolar fractures – a large single center series

JASON MAVROTAS, United Kingdom

The contribution of hysteroscopy in the exploration of postmenopausal metrorrhagia

MOHAMED MAHDI GHARBI, Soukra

Nuck's hydrocele : a case report

LISANDRA SILVA, Brasil

Intraoperative variation of portal pressure is predictive of post-hepatectomy liver failure and mortality after major hepatectomy

RAMI RHAJEM, France

Proximalization is advancement - zone 2 vs. Zone 3 frozen elephant trunk clinical outcomes: a systematic review & meta-analysis

MATTI JUBOURI, United Kingdom

Acute aortic regurgitation post tavi: a case report

BOTHAYNA AMIEN, United Kingdom

Acute abdomen after spilled intrabdominal fecolith post appendectomy

ABD-ELFATTAH KALMOUSH, Egypt

Urology

Sedation vs general anesthesia in stone ureteroscopy: comparison of efficacy and safety.

ANTOINE DAQUIN, France

Stent-free rates post rendezvous procedure for complex ureteric strictures; a 10-year experience

THRSHEGAN THEIVENDRAMPILLAI, United Kingdom

An audit of acute scrotal pain and scrotal exploration for suspected testicular torsion in the paediatric population at a district general hospital.

SHENTHIUIYAN THEIVENDRAMPILLAI, United Kingdom

The pact study: a prospective mixed-methods study of patient attitudes towards multiparametric magnetic resonance imaging-directed prostate cancer diagnosis

JOSEPH NORRIS, United Kingdom

New minimally access hydrocelectomy

ALY SABER, Egypt

Predictive factors of testicular cancer in small testicular tumors treated with partial orchiectomy: a retrospective study.

JONATHAN OLIVIER, France

Surgical Oncology

Value of frozen section examination for the management of small testicular tumors

JONATHAN OLIVIER, France

Can we predict long term mortality with elderly patients in colorectal cancer operations?

KASO ARI, United Kingdom

Molecular characterization of esophageal adenocarcinomas (eac) and its prognostic impact

CONSTANCE HOULZE-LAROYE, France

Lynch syndrome – do we really screen for it?

KASO ARI, United Kingdom

Clinico-pathological factors affecting lymph node yield (lny) and positivity (lnp) in left sided colon and rectal cancers

MUHAMMAD RAFAIH IQBAL, United Kingdom

Performance of different nebulizers in clinical use for pressurized intra-peritoneal aerosol chemotherapy (pipac)

URS GIGER-PABST, Germany

OPEN CEREMONY**Colorectal surgery**

Iatrogenic ureteric injury during colorectal surgery has a significant impact on patient outcomes.

A french multicentric retrospective cohort study

DIANE MEGE, France

The prognostic role of methylated circulating tumour dna detected in healthy subjects later diagnosed with colorectal cancer in the hunt study

SIV STAKSET BRENNE, Norway

Future role of three-dimensional modelling technology in acute colonic diverticulitis

ARPÁD PANYKO, Slovakia

Lipopolysaccharide-binding protein (lbp) in assessing the risk of adverse outcomes in operated colorectal cancer patients

ALINA OGIZBAYEVA, Karaganda, Kazakhstan

Two-stage turnbull-cutait pull-through coloanal anastomosis in distal rectal cancer: our 7-year experience

PIRILTI ÖZCAN, Turkey

Review of management of perforated diverticular disease based on hinchey classification in modern practice.

MOHAMED SALEM, United Kingdom

Integrating new technology into surgical practice

Performance of intraoperative surgical smoke elimination technologies for laparoscopic surgery: a comparative in-vivo pig study

URS GIGER-PABST, Germany

A new three-dimensional fully bioresorbable mesh obtained by 3d printing for the reconstruction of the hypodermis - proof of concept

AMÉLIA JORDAO, France

Partially absorbable 60% poly-L-lactic acid/polypropylene copolymer (plla/pp) 4dventral® promotes an anti-inflammatory response in human macrophages and low susceptibility to bacterial adherence in vitro

DAOUDI MEHDI, France

Performance of an ambulatory digestive reinsertion device

JEAN ROBERT NZAMUSHE, France

A new gas exchange device and its low-flow application with special regard to co2 elimination

FOIVOS MOUZAKIS, Germany

3d printing significantly improves procedural understanding in aortic surgery patients – preliminary results of a prospective randomized cohort trial

ARASH MOTEKALLEMI, Germany

From Bedside to Classroom

The safety and efficacy of day-case laparoscopic appendicectomies for acute appendicitis in adults: a two-year retrospective case study

GULZAR DHANOYA DHANOYA, United Kingdom

Contained vascular hepatic injuries after liver trauma: a monocentric retrospective analysis.

SÉBASTIEN FREY, France

Method of decompression of the malignant large bowel obstruction

ZAURBEK TOTIKOV, Vladikavkaz

Cystic lymphangioma of the gallbladder in children: a case report

STEVY MIAMPIKA, France

Novel technique of chronic large parastomal hernia in emergency session

AHMED ZEID, United Kingdom

Normal adnexal torsion and twin pregnancy: about a case

HAJRI MARWA, Tunisia

Severe ankle injury

MAXIME MATON, Belgium

Predictors of long-term survival after hip fractures-a 5 year results of a retrospective

ABHISHEK SHETTY, India

Outcomes of surgical repair of incisional hernia in the old patients ≥ 70 years

ISLAM OMAR, Ireland

Molecular landscape of prostate cancer topography: observations from the tcga

JOSEPH NORRIS, United Kingdom

Active surveillance of low-risk prostate cancer: comparison of the oncological outcomes between men younger and older than 60 years old.

JONATHAN OLIVIER, France

A pla/pcl monofilament for transvaginal mesh knitting for pelvic organ prolapse treatment purpose: from the extrusion phase to the in vitro assessment of chemical and mechanical profile

ALESSANDRO FERDINANDO RUFFOLO, Italy

Biomechanical properties of each layer of porcine perineal tissues

MARINE LALLEMANT, France

The value of laparoscopy in acute pelvic pain

MOHAMED MAHDI GHARBI, Soukra

Risk stratification using scoring systems for patients undergoing cardiac surgery: a review

SARA ZAIDI, United Kingdom

Organ preservation and Transplantation

Preventive effect of adipose-derived mesenchymal stem/stromal cell line (asc) sheets for rat liver ischemia-reperfusion injury model

KITA HIDENORI, Japan

N-acetylcysteine and curcumin reverse iec-6 cell damage in in vitro ischemia/reperfusion model

UNAI MONTEJO, Spain

A new organ preservation solution for cold storage and oxygenated organ preservation; first results from a clinically relevant porcine kidney transplantation model

RENE TOLBA, Germany

Assessment of rapamycin as a treatment of steatotic liver grafts during ex vivo perfusion

CELIA TURCO, France

Walter Brendel / Best experimental study session

Keynote lecture

Innovative concepts towards intra-arterial photodynamic therapy

SABRINA HOUTHOOFD, Belgium

Pulmonary valve replacement under cardiopulmonary bypass in the juvenile sheep, tips and tricks in a fragile model

JEROME SOQUET, France

Long-term in-vivo study of the growth of a pedicled fat flap in a tissue engineering chamber

GUILLAUME LACROIX, France

Experimental impact of pushing effort and frequency on fetal sheep ph variation

LOUIS GALAN, France

Feasibility of personalized tumor organoids culture from non-metastatic colorectal cancer and preliminary study of their interest in the management of adjuvant chemotherapy.

CHARREAU QUENTIN, France

Evaluation of effectiveness of targeted photodynamic therapy using a vectorized photosensitizer coupled to folic acid in an ovarian cancer model

MARGAUX MERLIER, France

Orthopedic, spine and neurosurgery

Early aseptic tibial loosening in total knee replacement – a gender and obesity related complication

JASMEET JHAJ, United Kingdom

Does the introduction of a daily middle-grade ward round improve mortality and length of stay in hip fracture patients? A large single-centre series at the united kingdom's top performing trust

JASON MAVROTAS, United Kingdom

Management of neck of femur fractures in a uk major trauma centre, a difficult balance: patient outcomes and resource considerations

MUTAZ ALSUMADI, United Kingdom

Infection after total knee arthroplasty: bilateral simultaneous vs bilateral staggered vs bilateral staged a prospective observational study

ABHISHEK SHETTY, India

Bacterial study in ruptured and unruptured intracranial aneurysm walls with pcr technique in a french population

TUONG LU, France

Prevalence of hands tumors in a city office practice

ROMAIN BAILLOT, Switzerland

Improving the burden of spinal trauma on orthopaedic services at a district general hospital

LUKE THORNTON, United Kingdom

CMC1 joint arthroplasty: so many implanted, so few documented.
KONSTANTINOS VAKALOPOULOS, Switzerland

4:30 pm - 6:30 pm

Salle des Thèses

Experimental Models In Research

Development of a model of neonatal analgesia throughout lactation in rats

ISABELLE DUTRIEZ-CASTELOOT, France

Vascular eptfe grafts in a porcine carotid artery model

JAROSLAV CHLUPAC, Czech Republic

Pharmacological prophylaxis of intestinal reperfusion damage

IGNACIO GARCIA-ALONSO, Spain

A simple method for ex vivo parathyroid procurement in mini-pigs.

MEHDI MAANAOU, France

Umbilico-placental hemodynamics and transplacental o2 exchanges during intact cord resuscitation in newborn lambs with congenital diaphragmatic hernia (cdh)

DYUTI SHARMA, France

Evaluation of the effectiveness of intra-articular injection of botulinum toxin type a and its comparison to hyaluronic acid in a rat model of temporomandibular joint osteoarthritis

FLORENT BARRY, France

An investigation of the link between hypoxia and the development of dupuytren's disease.

AOIFE O'BRIEN, Ireland

Oral d-xylose plasma appearance as a biomarker for intestinal glucose absorption in minipigs and humans

RÉBECCA GOUTCHTAT, France

4:30 pm - 6:30 pm

Salle des Conseils

Cardiac, Vascular And Thoracic Surgery

Driving technology for endovascular aortic arch repair: an international analysis of relay branched outcomes

MATTI JUBOURI, United Kingdom

Incidence of delirium & neurological events in cardiac surgery & tavi procedures at cardiothoracic centre ticino (cct) .A six-year retrospective analysis.

PIETRO CALAMAI, Switzerland

Identification of pre- intra- and post-operative predictive factors influencing the primary patency of femoro-popliteal autologous vein bypasses.

WILLOT CLÉMENT, France

Type b aortic dissections in canton ticino .Twenty-year incidence & overall management

OLIVER MATTICH, Switzerland

Mouse model of hindlimb ischemia : tips and tricks we learned

MARIE JUNGLING, France

Surgical management of carotid artery disease: a 10-year single center retrospective experience.

AULARD DORCHE WILLIAM, France

Vietnam mission 10 years results

THOMAS THEOLOGOU, Switzerland

Emergency and Trauma surgery

Experimental education to damage control surgery in civil hospital: a model of multidisciplinary civil surgical team

JEAN ROBERT NZAMUSHE, France

May c-reactive protein levels anticipate complicated gallstone cholecystitis in the elderly patient?

MARIO TESTINI, Italy

Surgical management of secondary peritonitis, an experience of 212 cases in five years

SALAH MANSOR, Qatar

Considering the role of general surgeons against major or mega-disasters, including nbc/cbrne hazards and the disaster medicine compendium

YOSHIKURA HARAGUCHI, Japan

Sending patients home with a nasal pack during covid 19 to reduce inpatient stay - can we still do this now?

KASO ARI, United Kingdom

Importance of early diagnosis and treatment of acute mesenteric ischemia-wses guidelines and recommendations

SADAF HANIF, United Kingdom

Management of acute compartment syndrome - a 3 year retrospective series at a uk major trauma centre

JASON MAVROTAS, United Kingdom

Hepato-Pancreato-Biliary surgery

5-Ala mediated photodynamic therapy in the treatment of hepatocellular carcinoma: an in vitro and ex vivo feasibility study

FLORIAN PECQUENARD, France

Anterior versus classical approach during right hepatectomy for hepatocellular carcinoma: inverse propensity score weighted analysis

RAMI RHAJEM, France

Mechanisms of liver regeneration in a rat model of liver venous deprivation technique and measurement of hypoxia

LAZARE SOMMIER, France

Prognostic indicators for disease-free and overall survival after surgical resection of pancreatic ductal adenocarcinoma

THRSHEGAN THEIVENDRAMPILLAI, United Kingdom

A case series and literature review on gall bladder malignancy in a single centre in india.

GOWRI MADHUSUDANAN PILLAI, UK

Optimal timing of radiological interventions for abdominal collections during the late phase of the acute necrotizing pancreatitis

MAHMOUD YASIN, United Kingdom

Operative risk factors for clinically relevant postoperative pancreatic fistula after pancreaticoduodenectomy: a prospective multicenter cohort study

MOHAMMED OMAR, Egypt

Surgical Innovation And Education

Avoidable medical errors in invasive procedures: facts on the ground – nhs staff survey

ISLAM OMAR, Ireland

Mobility analysis of a posterior sacrospinous ligament fixation using a finite element model of the pelvic system

MARINE LALLEMANT, France

Ophthalmology teaching: how an effective teaching programme influences junior doctor confidence on the wards

SATYA MARIPI, United Kingdom

A novel evaluation tool for foundation doctor simulation courses in united kingdom

MUHAMMAD RAFAIH IQBAL, United Kingdom

Does increased exposure to cardiothoracic surgery increase medical students' interest in the speciality? - A systematic review

NAJEEBA LALLMAHOMED, United Kingdom

Understanding uk medical students' perspectives on a career in cardiothoracic surgery

CHRISTOPHER GOULDEN, United Kingdom

Radiation risk of surgeons during vascular and trauma surgery

TEDDY S VIJFVINKEL, The Netherlands

08:45 am - 10:30 am

Salle des Thèses

Teaching Through Cases

The safety and efficacy of day-case laparoscopic nissen fundoplication for the treatment of gerd in adults: a two year study from a university teaching hospital

GULZAR DHANOYA DHANOYA, United Kingdom

Evidence-based frozen elephant trunk practice: a systematic review and meta-analysis

MATTI JUBOURI, United Kingdom

Sex-linked differences in acute liver failure induced by thioacetamid in lewis rats

EVA KOBLIHOVA, Czech Republic

Open preperitoneal versus anterior approach for recurrent inguinal hernia: a randomized study.

ALY SABER, Egypt

Risk factors for peritoneal tears during laparoscopic extraperitoneal hernia repair

TURGUT DONMEZ, Turkey

A pla/pcl monofilament for transvaginal mesh knitting for pelvic organ prolapse treatment purpose: from the extrusion phase to the in vitro assessment of chemical and mechanical profile

ALESSANDRO FERDINANDO RUFFOLO, Italy

The place of laparoscopy in the management of ectopic pregnancies

MOHAMED MAHDI GHARBI, Soukra

The results of treatment of severe forms of pelvic prolapse

ZAURBEK TOTIKOV, Vladikavkaz

Dropped head syndrome : example of three-stage surgery

TUONG LU, France

Safety of surgical repair of incisional hernia in patients with morbid obesity

ISLAM OMAR, Ireland

Outcomes of elective and emergency surgical repair of incisional hernia – a comparative observational study

ISLAM OMAR, Ireland

Acute left sided colonic diverticulitis management – medical vs. Surgery

AYISHA FAROOQ, United Kingdom

Proms concept and the use of who-5 psychological well-being index & self-rated health status to assess how patients perceive their disease. An observational study in cardiocentro ticino

PIETRO MASTROIANNI, Switzerland

The results of treatment of severe forms of pelvic prolapse

ZAURBEK TOTIKOV, Vladikavkaz

Vestigial cyst of the uterus

MOHAMED MAHDI GHARBI, Soukra

Flap reconstruction for deep sternal wound infection with osteomyelitis and mycotic aneurysm of the aortic arch: a case report

JENNY ZHANG, United Kingdom

An ovarian borderline tumor tant mimics a high genital infection

HAJRI MARWA, Tunisia

Virtual consultations – barriers to application in clinical medicine

SHENTHUIYAN THEIVENDRAMPILLAI, United Kingdom

Videolaparoscopic operations for malignant large bowel obstruction

ZAURBEK TOTIKOV, Vladikavkaz

Safety and oncological results of intraoperative microwave ablation with or without hepatic resection for colorectal liver metastases: preoperative chemotherapy and tumor location matter.

RAMI RHAÏEM, France

10:30 am - 10:55 am

Coffee break

11:00 am - 12:30 pm

Salle des Congrès

Obstetrics and Gynecological surgery

An in-vivo rabbit-model comparison between a new synthetic resorbable mesh (probiomesh) and a polypropylene mesh for pelvic organ prolapse treatment purpose

ALESSANDRO FERDINANDO RUFFOLO, Italy

Hysterotomy during emergency cesarean section : comparison of cephalad-caudad versus transversal blunt expansion

PAULINE LESUR, France

Comparison of first versus second line sacrocolpopexies in terms of morbidity and mid-term efficacy

MARINE LALLEMANT, France

A comparison between the vaginal patch plastron associated with the sacrospinous ligament fixation and the uphold lite vaginal support system for the treatment of advanced anterior vaginal wall prolapse

ALESSANDRO FERDINANDO RUFFOLO, Italy

Gut microbiome in women with breast cancer based on menopausal states within pahang, malaysia

NOOR EZMAS MAHNO, Malaysia

Spontaneous recurrent miscarriages: the interest of etiological diagnosis for a better management

MOHAMED MAHDI GHARBI, Soukra

11:00 am - 12:30 pm

Salle des Thèses

Robotic Surgery

Feasibility of two robotic colorectal cases in a day

MUHAMMAD RAFAIH IQBAL, united kingdom

Intraoperative performance and outcomes of robotic and laparoscopic gastrectomy for gastric cancer: is it worth it?

RADEK POHNAN, Czech Republic

Is robotic ventral mesh rectopexy for pelvic floor disorders better than laparoscopic approach at the beginning of the experience? A retrospective single-center study

DIANE MEGE, France

11:00 am - 12:30 pm

Salle des Conseils

Cell therapy , Cell and Islet Transplantation

Comparative characteristics of the induction activity of apoptotic bone marrow cells and total rna of these cells on regenerative processes in the liver after extensive resection

MURAT SHAGIDULIN, Russia

Renal evolution 10 years after islet transplantation in type 1 diabetes

ELLENA ROBIN, France

Dynamic assessment of human islet secretion: amount of insulin released after glucose stimulation

PRIYADARSHINI PANCHATCHARAM, France

Heterogeneity between donors following gaba administration to transdifferentiate human α -cells into insulin-secreting β -cells in vitro and in vivo

VALENTIN LERICQUE, France

Development of a parathyroid cell therapy adapted for allo- and xeno- transplantation for the treatment of hypoparathyroidism.

MEHDI MAANAQWI, France

The role of pancreatic regenerative protein (psp/reg) in islet regeneration and diabetogenesis

ISALINE LOUVET, France

12:30 pm - 1:55 pm

Lunch break

2:00 pm - 3:30 pm

Salle des Congrès

Metabolic Bariatric and Upper GI Surgery

Follow-up, safety, and satisfaction with tele-bariatric follow-up implemented during the covid-19 french lockdown: a 2-year follow-up study

AHMED GHAZOUANI, France

Analysis of the efficacy and long-term metabolic and nutritional status of sleeve gastrectomy with transit bipartition compared to roux-en-y gastric bypass in obese rats

CLEMENT BARATTE, France

Development of a göttingen minipig model of sleeve gastrectomy with transit bipartition and comparison of its metabolic effects with sleeve gastrectomy alone and single anastomosis duodeno-ileal bypass (sadi-s).

AGATHE REMOND, France

Day-case laparoscopic partial gastrectomies for the treatment of gists in adults: a two year study at a university teaching hospital

GULZAR DHANOYA DHANOYA, United Kingdom

2:00 pm - 3:30 pm

Salle des Thèses

Surgical Video session

Middle colic artery first approach for benign subtotal colectomy using davinci x - a video vignette

MUHAMMAD RAFAIH IQBAL, United Kingdom

Contained rupture of lv "an imminent death or an unlucky life saver? A rare case presentation

CAN KESKINASLAN, Switzerland

Robotic mitral for severe mr

LIVIA WALTERT, Switzerland

Mini david procedure

BRIAN CASANOVA, Switzerland

Bariatric surgery in patient with previous anti-reflux surgery

AMIR DAVARPANAH JAZI, Iran

Acute fulminant myocarditis. Clinical dilemmas in unfortunate cases in medicine.

CAN KESKINASLAN, Switzerland

Intuity modified avr technique

LIVIA WALTERT, Switzerland

Ischemic vsd double patch technique

BRIAN CASANOVA, Switzerland

Endoscopic esophagectomy

AMIR DAVARPANAH JAZI, Iran

3:30 pm - 3:55 pm

Coffee break

4:00 pm - 4:45 pm

Salle des Congrès

Young investigators best oral communications

Young investigators 2nd best oral communications

Young investigators best innovation oral communication

4:45 pm - 6:30 pm

Salle des Congrès

Best clinical study session

Keynote lecture

Driving endovascular solutions for abdominal aortic aneurysms: a 9-year international experience with the fenestrated anaconda endograft

MATTI JUBOURI, United Kingdom

Impact of obesity on both surgical and oncological outcomes after gastric adenocarcinoma surgery

OPHÉLIE BACOEUR OUZILLOU, France

Conservative management versus systematic suture of isolated vaginal or first-degree perineal tears after delivery: a preliminary randomized efficacy trial

MARINE LALLEMANT, France

Comparison between thoracoscopy and thoracotomy for esophageal atresia with tracheoesophageal fistula: in term of morbidity during the first year of life

DYUTI SHARMA, France

Obesity increases the surgical complexity and risk of recurrence after midline primary ventral hernia repair: results on 2307 patients from the french society of hernia surgery (sfc-p-ch) registry database

DAVID MOSZKOWICZ MOSZKOWICZ, France

Surgical management of retrorectal tumors: a french multicentric experience of 270 consecutives cases

DIANE MEGE, France

6:30 pm - 6:45 pm

Salle des Congrès

CLOSING CEREMONY AND AWARDS
